4

The diagram illustrates a rectangular frame assembly. The main view shows a perspective of a rectangular frame with four corner joints. A circular inset provides a detailed view of one corner joint. In this inset, a cylindrical component is shown being inserted into a slot in the frame. A force vector  $N$  is applied to the cylinder, and a curved arrow indicates a rotational motion. A small rectangular block is also shown near the joint.

This diagram illustrates the third step of assembly: attaching the headboard. The main view shows the headboard being lowered into place on the bed frame. A circular inset provides a close-up of the headboard's connection point, showing a large arrow pointing down to indicate the direction of movement and the presence of a locking pin or clip.
