Kotki nabijać w zaznaczone strzałkami miejsca. Długość wystającego kotka po wbiciu w otwór nie może przekraczać 9–10mm.

This exploded perspective view illustrates the assembly of a cabinet. The top panel (15) is shown being attached to the side panels (B1) and the base panel (17) using various fasteners. The side panels (B1) are shown being attached to the base panel (17) using fasteners labeled K1. The base panel (17) is shown being attached to the side panels (B1) using fasteners labeled K5. The exploded view shows the relative positions of the panels and the fasteners used to assemble them.

This exploded view diagram illustrates the assembly of a cabinet. The components are labeled with circled numbers and letters:

- 3**: A small rectangular piece, likely a hinge or stop.
- E33**: A long, thin rectangular piece, possibly a shelf or divider.
- G16**: A screw used for securing the side panel.
- B1**: A cylindrical roller or support.
- 15**: The main cabinet body or frame.
- 18**: The side panel of the cabinet.
- 19**: A horizontal shelf or divider.
- K5**: A screw used for securing the shelf.
- K1**: A cylindrical roller or support, shown at the bottom of the cabinet.

The diagram shows the relative positions and assembly sequence of these parts, with arrows indicating the direction of assembly.
